### Special Edition:

By: Allen Says

What I am about to tell you is so powerful that when you read it, and understand it, you will run screaming to your loved one...**We're Rich!..We're Rich!**. It's quite possible you will not sleep tonight at all. Seriously..

I'm going to reveal something to you that **99%** of the people on the web that want to make money will **never discover**. If they do run across it, they probably won't catch the awesome truth and power of it.

I'm going to tell you how you can basically own your own newsletter, a newsletter that makes a ton of money, without ever creating a product or writing a single word. In this business you have only one job - **to give something away free**. That's it...giving away free things that people want.

First, there's something you **must know** about Internet marketing. There is **one thing** and one thing only that is making the smartest, home-based marketers millions of dollars on the Internet...and that is **E-Mail**.

E-Mail is where the money **is** being made. The **War-Report** pulls in anywhere from \$3000 to \$60,000 every time it is mailed out. The response varies greatly according to what we're selling, but it always makes money. It recently launched a new business for us that pulled in over **\$300,000** in the first 6 months.

If you get nothing else out of this letter please get this one truth - getting **every** email address you can to sign up to your list is the way to make a fortune on the Internet. If you have a list of **50,000** email addresses of people who **want** your newsletter, you got yourself a non-stop goldmine.

Now, I'm going to tell you **exactly** how to get as big a piece of that pie as you want or need. I'm going to literally give you a part of an already proven business that pulls in umpteen thousands of dollars a month. - free. It will cost you nothing to begin right now and build your income to where you want it.

**The three biggest problems to starting a newsletter:**

1. You Must Be Willing To Write Weekly
2. You Must Have Multiple Products To Sell
3. It Must Be Unique In Some Way

For most people, that right there kills any hope of ever having their own newsletter. It is a big job unless you absolutely **love** doing it every day. That's where **The War-Report** comes in. We **do** love it. We live for it. And **you** can profit from it.

We pay out over half the price of most of our products in commissions to you when someone you have referred to us buys. You simply refer people to our signup form and once they subscribe, we take it from there. Your 'job' is over. We do the rest. We make the sales and you make the commissions automatically.

Not only that, all of our products except one pays two level commissions. That means if you refer someone to us and they began referring people to us also, you make a commission on anything **they sell** as well. This way you can build a great residual income that keeps working even if you're on a vacation.

You make money two different ways. From your own sales and the sales of people you refer. We have affiliates making **thousands of dollars** a month in residual income and there is **nothing** that can stop you from doing it also.

You do **NO** selling. All you do is show people where to sign up to the best newsletter on the Internet and get some free bonuses for doing so. They will be **glad** they ran into you.

\*You have a line of **proven** products that, basically, **become your own**.

\*You make money off them just like they are actually yours.

\*You do **no selling** whatsoever, you have nothing to stock, you have nothing to write, you don't even have anything to say to anybody.

It can't get any better or easier than this. Remember, I've been proving my strategy for **6 straight years**. It works. We make a **lot** of money. All you have to do is step in and profit from it. You can begin profiting from it as easy as putting a link on your web site.

Look at the list below of our current products and the commisions you will make on 1st and 2nd level sales.

The 1st and 2nd level commissions you make on our current products are...

**Host4Profit**

**21 Ways To Double Your Sales Seminar**

And many more coming...

**Host4Profit** is the only one that does not pay on two levels. You make \$10 Per Month on every subscriber you referred that signs up for **Host4Profit**. If you take this serious and get thousands of subscribers you can have 100, 200 or 1000 people signed up in **Host4Profit**. 200 people using **Host4Profit** as their host under your ID# would pay you \$2000 monthly. **1000 people would pay you \$10,000 monthly.**

You may be asking if this is all possible. Well, we already have **thousands** of people signed up in **Host4Profit** now. Millions more people are our potential customers. You better believe it's possible. For anyone willing to make the business their own, the profit potential for them is unlimited.

We've sold **thousands** of Warrior memberships and millions more are out there ready to buy. They just have to find us. And that's where you come in. You **introduce** them to us with something that is completely free to them. Then, we follow up until they buy. When they do buy, **you** make money. Whether they buy immediately or 6 months later you still get the commission on whatever they buy.

Our **E-Mail Capture System** is very powerful. When you get subscribers, your ID# is connected to their email address in our database forever. When we send an email out to the list, your affiliate ID# is in **every** message to the people you have signed up. If they buy something, you make money. No matter how many different products we sell, you make money on all of them.

Plus, don't forget that many of the people you get to subscribe will also become affiliates **underyou**. When they make a sale, you make money **again**.

## This Can Build Into A **Fantastic** Monthly Income

If you treat this business **as your own**, like it is your own newsletter, you won't have to worry about what type of business to start or what type of products to create. You can make great money every month without bothering with **any** of that.

As a Warrior member you will learn many ways to get thousands of people to sign up to our free email newsletter. We have a ton of books and reports inside the **War-Report** download site that will give you all the ideas and techniques you need.
